

Sterling® Ultra EX

NARROW ROLLS. READY TO RUN.

Sterling, a trusted brand for generations, has become the go-to coated paper for the expanding inkjet market. Known for its positive on-press performance and print quality, Sterling Ultra EX delivers exceptional optics, surface smoothness and consistency that you expect from Sterling. And with roll condition to meet production inkjet print requirements, the choice to run with Sterling Ultra EX has never been easier.

FEATURES:

- Gloss and Matte finish
- 7 & 9 pt. offerings meet USPS minimum requirements
- Intended for production inkjet web presses designed to run coated papers[^]
- Roll condition that meets production inkjet printing requirements
- Smooth surface and excellent gloss ink holdout for crisp dot resolution and images that snap
- Consistent and reliable press performance and bindery throughput
- Fully backed by our best-in-class customer support
- Manufactured in the USA with Pride

[^]In all printing situations, the quality requirements and productivity expectations vary based upon the complexity of the end-use applications. While many digital press manufacturers recommend certain offset papers, customers should verify product compatibility with the digital press manufacturer, test substrates prior to use and consider the printing demands of the specific job.

APPLICATIONS:

- Annual reports
- Magazine inserts
- Direct mail
- Corporate brochures
- Catalogs
- Posters
